oasis spas

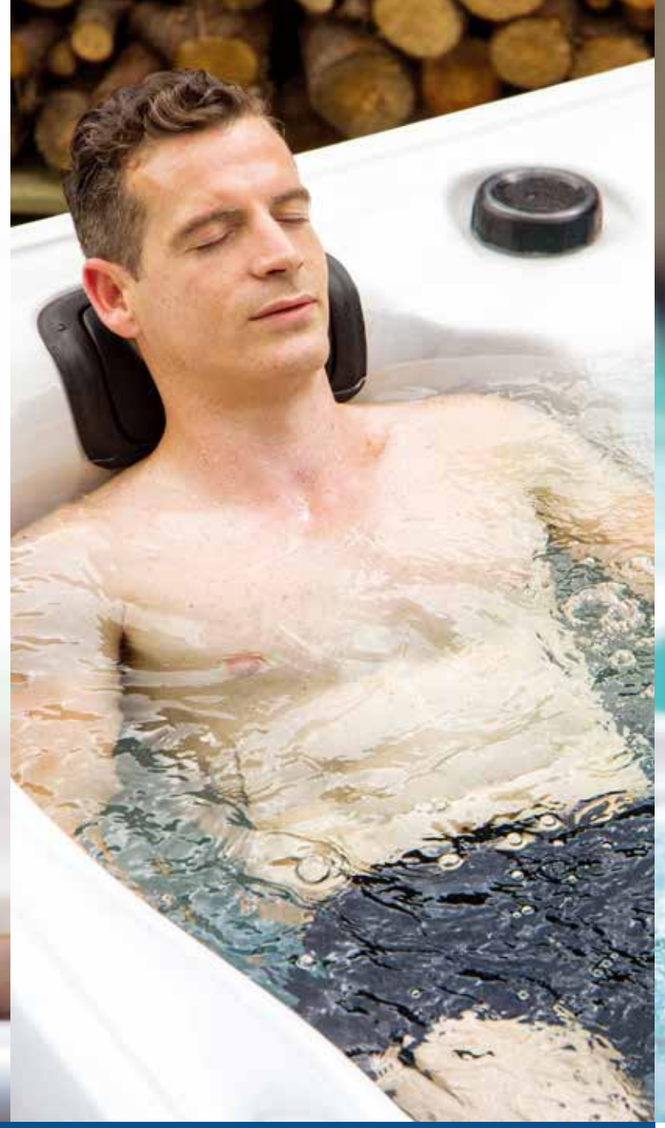

For **Fitness**
Relaxation
and **Fun**

SWIM SPA

Aqua Life / Easy Life Series

Treat yourself to a better way of living. You deserve it!

Be yourself

Enhance your health in the comfort and privacy of your own backyard. The swim spa provides a low-impact, comprehensive workout that promotes muscular growth, boosts energy, and facilitates calorie burning.

Be together

Enjoy in the soothing warmth of the water and create enduring memories with your loved ones. The swim spa provides a private peaceful setting for relaxation, alleviating stress, and participating in meaningful conversations.

Be outside

Take a moment to appreciate the gorgeous sunsets, starry nights, falling snow, changing seasons, and other natural wonders.

You have a private retreat with a swim spa only steps from your door. Being surrounded by nature allows you to completely enjoy the stunning surroundings that we frequently overlook.

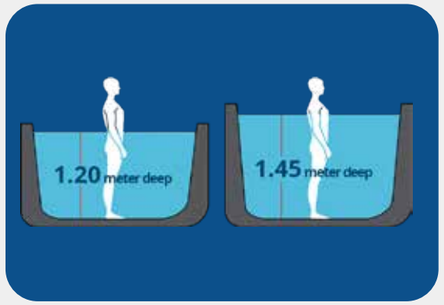

Ingenious design for maximum comfort

Experience Freedom in Every Stroke

A swim spa with a width of 2.35 metres offers a more expansive swimming area, facilitating a more relaxed and authentic swimming experience.

Choose Your Plunge

Oasis spas are proud to offer both standard Depth and Extra Depth swim spa.

- **Standard Depth:**

Easier to access, less cost to heat and maintain, User friendly and safety assured.

- **Extra Depth**

With greater depth, an extra depth swim spa provides a more realistic and challenging swimming environment.

Innovative design for extended swimming area

With a more expansive and endless swimming spa, Oasis Swim Spa enables swimmers of all skill levels to achieve their objectives, whether they are engaged in competitive swimming or simply seeking to improve their fitness.

Swim line

This line is designed for convenient placement in the swim stream. Constructed from resilient EVA resin, this material remains flexible even in low temperatures, providing excellent foot safeguarding, resisting deterioration and ozone damage, and preventing peeling.

Unleash your best swimming performance

Oasis revolutionary patented 3 inch turbo swim jets provide a powerful yet smooth for an unparalleled swimming experience.
Accurate jet placement is essential, as jets that are positioned too low or too wide result in inefficient water flow. The swim jets are specifically designed to focus on the shoulders and chest, aiming to achieve optimal balance.

Patented 3-inch power flow swim jet

Experience a luxurious swimming workout, featuring the option to swim against a strong stream, and feel pure excitement in every single minute.

- The honeycomb design of our product sets it apart from the direct injection jets available in the market. Water sprays with a greater level of consistency and devoid of any vortex-induced turbulence.
- Power flow swim jets utilise high-flow pumps to generate targeted resistance, eliminating the need for water diverters and ensuring maximal and smoother water flow.
- Precise jet positioning is of vital importance. The swim jets are designed to specifically target the shoulders and chest, resulting in the highest level of resistance.

Swim at your own pace

Quickwater professional swimming training system

Experience the magnificence of a five-star swimming swim spa. Our swim spa is unlike any other available on the market; it features a 10-speed swim pump, intelligent swim control system, and precisely positioned power flow swim jets that deliver a continuous, smooth, and forceful flow for swimming and exercise.

Adjustable speed control panel

10 grades of adjustable swimming current strength, everyone can find his/her own speed for swimming!

*Available on Pro Premium model only.

Creating the perfect massage

Point map
massage jet layout

By integrating scientific seating designs with precise massage treatments, Oasis spas deliver the well-established advantages of hydrotherapy and the associated stimulation. Hydrotherapy massage employs targeted water jets to relax muscles, increase blood circulation, and foster a holistic sense of well-being throughout the body.

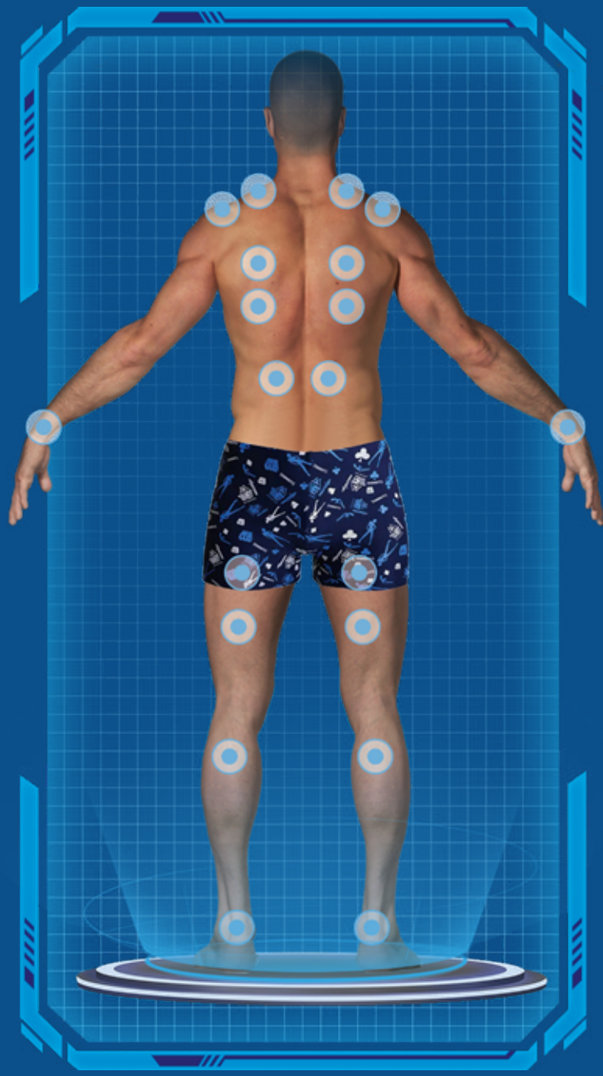

Unleash surging force

Boost your hydrotherapy experience with our advanced high-power massage pumps. Providing a steady surge of energy and guaranteeing a continuous flow of water for complete immersion and rejuvenation in an exceptionally peaceful spa environment.

Diverse jet combination

Different jet configurations on each seat, provide a varied and targeted massage for different muscles groups.

Full body massage recliner
Experience the relaxation of your entire body all at once - from neck to toes.

Accu-pressure back massage
A number of accu-pressure jets are used in one seat to precisely target pressure points in the back and lower neck.

Massage Wall
The massage wall is just what you need after a workout to make you feel better, ease muscle pain, improve circulation, and help you recover from a strenuous event faster.

Customise Your Own Massage Experience

1. Precision-crafted stainless steel hydrotherapy jets.
2. Performing various actions, adjust each jet individually for a great targeted massage.

2.5 Inch Jet Internal-Directional

3 Inch Jet Single-Spin

4 Inch Jet Single-Spin

5 Inch Jet Single-Spin

Cut your energy bills up to 26%

Daily Energy Cost (kWh)

Oasis Swim Spa

CEC standard

11.2 kWh **Oasis Swim Spa**

14.98 kWh **CEC Standard**

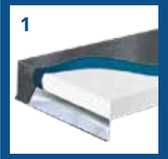

***The CEC energy test is a necessary certification for SPA products in California, USA.**

Test Conditions:
1.Fill tank with water at 15cm from top or center of skimmer spacing.
2.Use thermostat and circulation pump to heat water to 39 ± 1 ℃ .
3.Stable water temperature, ambient temp at 17℃ , test for 72 hours.
Calculate hourly power consumption using:
V: U.S. gallons (1 gallon ≈ 3.7854 liters)
Pmax: max power consumption per hour in watts.

Test Method:
Keep thermostat and circulation pump on, unplug other loads. Set low recirculation cycle, cover with thermal cover. Maintain water temp for 4 hours, note meter power. After room temp drops to CEC standard, record current meter power. After 72 hours, record power again. Compare actual power with theoretical value to check compliance.
Test Note: Theoretical CEC value is affected by water injected into prototype, leading to variations due to human errors.

5-Stage Platinum Lock Full Foaming

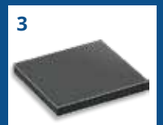

1 High density foam cover

A lockable cover constructed of high-density insulating foam prevents upward heat loss.

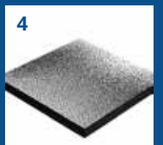

2 Full foaming

Full foam insulation creates a thermal barrier around the spa to ensure the heat sttays in the water where it should and is the most energy efficient insulation solution on the market.

3 Thermo shield

Three layers of insulation on the cabinet's sides guarantee its exterior durability while preserving its original shape under extreme temperatures.

4 Rubber insulation cotton

The cabinet is coated with a 25mm layer of rubber insulating cotton, which is covered with reflective aluminium foil. The purpose is not just to minimise heat loss, but also to actively reflect heat back into both the spa cabinet and the water.

5 Solid plastic base

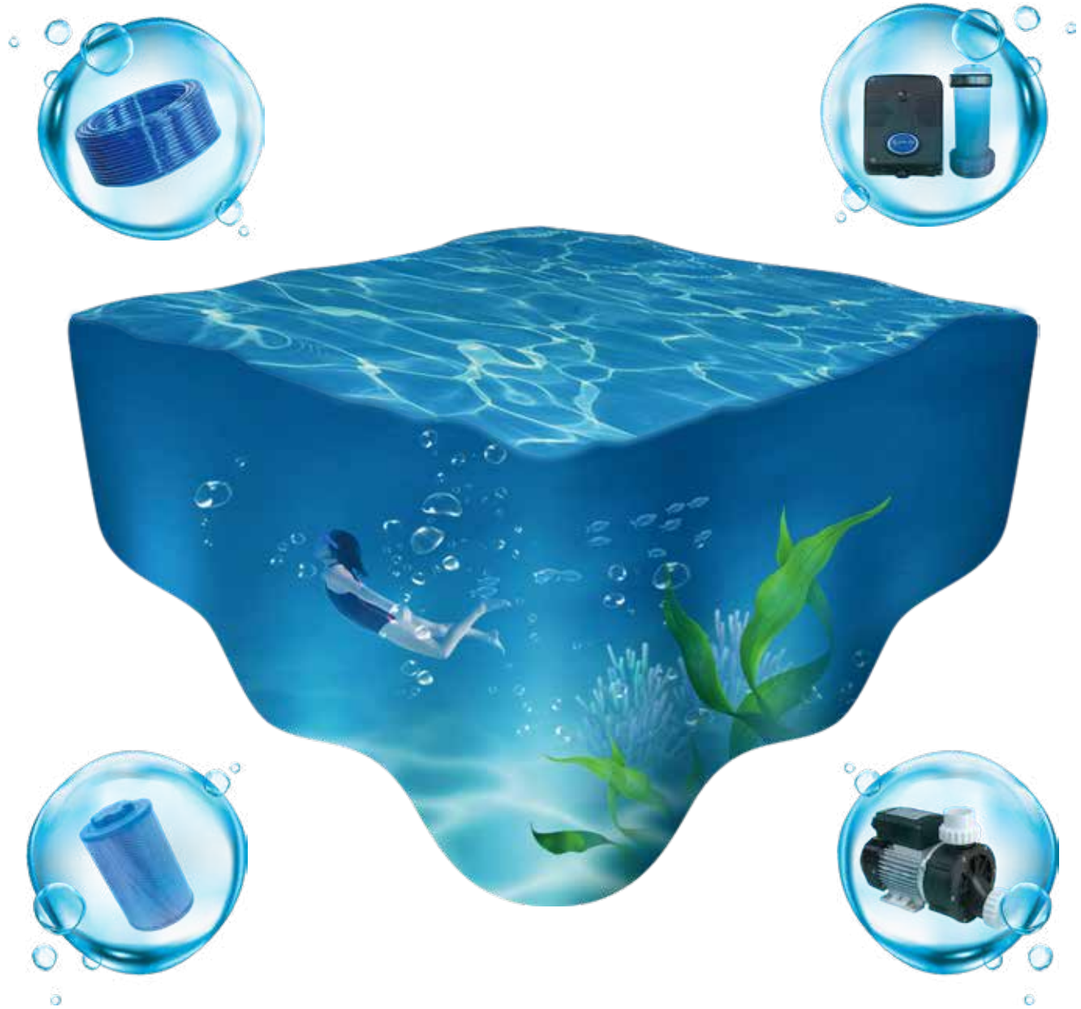

Increased spa durability with a solid blister base. Provides protection against pests, severe weather, and physical damage, while also giving an energy-efficient insulation system that helps reduce costs.

Enjoy the art of purity

Efficient antibacterial filtration system, providing crystal clear food-grade water.

NSF food-grade hoses
Experience the superior quality of water that protects you and your family from hazardous substances.

Virus and bacteria elimination
Low maintenance for the Ozone Mixing Chamber, ensures the provision of water that is both safe and clean. It effectively eliminates bacteria and breaks down body oils, resulting in a reduction in the need for chemical disinfectants.

High efficiency filtration
The highly efficient blue filters rapidly eliminate waste from your spa, guaranteeing a consistently safe and clean experience that is always prepared for your use.

Energy-efficient
Our system utilises a high-performance pump to guarantee minimal energy usage and effective energy conservation. This enables you to unwind and enjoy your spa without any concerns.

Easy control at your fingertips

With eighteen years of experience, the SPATECH control system provides spa consumers with an entirely new realm of possibilities. A five-year warranty provides reassurance.

The SpaTech control panel gives you real time feedback allowing you to manage your spa effectively and easily.

Easy control of your heat pump with the keypads. 6 modes let you take full advantage of your heat pump to optimize your savings: Eco Heat, Smart Heat, Eco Auto, Smart Auto, Cool, and Electric.

Customize maintenance reminder, which can automatically remind you to maintain your beloved hot tub in time according to your habits.

Thanks to its simple and efficient configuration options, the touchscreen keypad is intuitive and user friendly, easy for anyone to take control of.

Powerful compatibility with WiFi, Bluetooth speakers. Easy to control your hot tub's functions and features from any smartphone or tablet, even when you're away from home.

4 x Preset modes allow you to choose the best suited to your spa needs and maximise efficiency and reduce running costs: Standard, energy-saving, vacation and sleep mode.

Joint-friendly water sports with a variety of accessories

Create your effective aquatic fitness routine. Get the most from your swim spa experience with our wide range of swimming accessories.

Exercise Handrail

Excellent for children, beginning swimmers, and aerobic exercise.

Swim Pole (optional)

The swim pole helps you stay afloat, maintain your position in the water, offer resistance when needed, and improve your swimming technique so that you can go faster and more efficiently. The swim pole can help you get better at swimming whether you're a beginner or an expert swimmer.

Exercise band (optional)

Various exercises can be conducted to enhance flexibility, mobility, and balance for different muscle groups and fitness levels.

Discover the healing power and benefits of Hydrotherapy

Stress Relief
A leisure soak aids in stress relief, muscle relaxation, and tension reduction. Warm water and massaging jets have the ability to soothe the body and mind.

Muscle Relaxation
The integration of high temperature, upward force, and therapeutic water jets can alleviate muscular discomfort, alleviate muscle tightness, and enhance suppleness.

Improved Sleep
A spa session prior to sleep can facilitate a more restful sleep cycle and aid in body relaxation, thereby contributing to improved sleep quality.

Stimulated Healing
The synergy of thermotherapy and hydrotherapy can expedite the healing processes by enhancing blood flow and diminishing inflammation.

Lower Blood Pressure
Frequent utilisation of a spa can potentially reduce blood pressure levels, particularly when paired with relaxing methods.

Better Circulation
By dilatation of the blood vessels caused by the heat from a spa, circulation gets better, which is beneficial for cardiac health and overall cardiovascular function.

Pain Relief
Spa hydrotherapy helps alleviate chronic pain problems such as arthritis, fibromyalgia, and muscle soreness by enhancing blood circulation and triggering the release of endorphins, which are the body's own pain-relieving substances.

Weight Management
Although not designed to facilitate weight loss, spa use can enhance weight management endeavours through the promotion of relaxation, potential reduction of stress-induced food, and facilitation of better sleep.and promoting better sleep.

Why Oasis?

Oasis Spas is a premium international brand sold across the world. At Oasis, our designs are built with you in mind. The luxurious design and superior performance of your Oasis Spa will provide you with wide range of benefits, from our Customer Support Commitment to our Easy Care Technology and fully guaranteed warranty.

Exceptional after sales service

We offer robust logistics, storage, and transportation services in Australia, UK, France, Netherlands, Austria, and more. Our dedicated team is committed to providing ongoing support and guidance, ensuring your satisfaction and peace of mind well beyond your purchase.

Manufactured excellence

Produced by Crystal Island, their state-of-the-art 150,000m^2 facility is the source of Oasis Spas and other well-known global spa brands. Approximately 46 countries acquire up to 300,000 spas and swim spas from this facility. It guarantees the best possible product is purchased because it is the largest spa production facility in the world and is backed by Oasis Spas' local support network.
